Dear Millicent,

ADD, ADHD, autism, depression, anxiety, IBS, learning disorders, asthma, diabetes, and autoimmune disease---it's hard to ignore how unhealthy our children have become.

The steady and dramatic decline of our children's health is a complex puzzle. Read on to discover how the pieces fit together including...

- **How to overcome fear and TRUST your child's innate healing capacity.**
- **A common sense protocol for robust, healthy children.**
- **A short-list of our top children's health references for your natural parenting library.**
- **PLUS health-foodie (kid-friendly) faves and finds for busy families managing dietary restrictions.**

The artwork you'll see throughout the newsletter is from some of most talented and cherished clients...enjoy!

Message from Milly...

Our children are definitely our most beloved and precious resource.

They cannot bring themselves up, it requires specific
